Coppers.

British half pence, called Coppers.

b.64. 73. 215. For the value of these see pages 64. and 73. Evidently worth 2/3 of a penny—

See last page of Dwights accounts where 60 shillings was paid in coppers at 18 to a shilling, or 2/3 of a penny each.

In Robert Breck's accounts, end of Springfield book, 9 coppers passed for 6 pence, about 1760—so 2/3 of a penny ea.

Massachusetts in 1784. valued English farthings at three for a penny, and half pence (coppers) in the same proportion, or 3 for two pence. (Felt. 200. Here is the same value—1 copper was 2/3 of a New England penny, or a N.E. penny was 1½ coppers.

In Hadley 271st page. Coppers for ferriage at Hookanum are 2/3 of a penny. 1755

American Cents were to weigh 2¼ dwt avoir dupois to the hundred in 1786 (see Felt 202) and that is still their weight—or near it. I have found that 44 weigh a pound.

British half pence were, at some period, to weigh 48 to a pound avoirdupois (see Misc. No 2. 163) 48 of them made a dollar, and weighed the same as 100 cents, 2¼ pounds.

Copper coins were very scarce, or none, in 1701, &c. Some stamped bars and tin pennies. There was talk of Province pence. 1703, Felt thinks 5000£ in copper pence were imported. not certain. After the capture of Louisburg, 10 tons of copper coins were sent over—see Felt. I suspect there were few in the Province at any time before.

Felt. I. 128 By a Massachusetts law of 1750, three English farthings were to pass for a penny. This is just the same value as above, or a half penny was 2/3 of a penny. Copper half pence & farthings are mentioned but not stated. In 1684, 3 English farthings were to pass for a penny and half pence in proportion. Felt. 200.

p 136. 4 Coppers a pound for pork or 2 2/3d.

Misc. I. 164. Coppers or half pence, English, pass'd in Boston 1737. at 3d each, according to a writer in Boston Newspaper. A copper was 2/3 of a penny N.E.—so was advanced 4½ for one L.C. but produce & silver had not advanced so fast.

Springfield Latter End. Coppers (R. Breck) were 9 for 6 pence 1760—1764

Con. & Misc. I. 255, 1. 256. Adam Smith says 12 copper pence weigh half a pound, avoirdupois, of copper not the best. Ounce ½ pound seldom worth 1d when coined—worth 1½ after—— £24 copper half pence was the same as one made 1¼ a 16d in N.E. currency—— a penny weight 3/5 of an ounce

Copper Coins were the same in England in 1773 & 1842.

Bungtown Coppers.

In Hampshire Gazette. Oct 8. 1793. a man offered for the return of a runaway apprentice, "two Bungtown coppers."

Mass. 12. p. 308. See Tolls at Cambridge Bridge 1794.

1803. August. The U.S. Treasurer gave notice that agreeable to act of Congress of May 8. 1792, no copper coins should pass current as money, except Cents & half cents, after the expiration of 6 months from the 15th August 1803. to offer or pay or receive any copper coin in payment for any debt, except cents & half cents, subjected the coin to forfeiture & the offerer to a fine of 10 dollars. N.H. Hive Second No. Aug. 30 1803.

M. 29 248

The old coppers were to cease to pass, Feb 15. 1804. I remember it well.

1774. Stolen in Danbury 150 or 200 lb coppers for a shot bag.
1774. Prices of some things stated in coppers, in Newspapers
1786 Reduction of the coppers value. See Misc. II. 153.

The Factory was a long building back of the store. Weaving in one part and Spinning in the other. The wheels were turned by machinery, worked by a girl or boy. The distaff with the flax for warps was fastened to the side of the girl & the tow or filling Spinners held the cards & tow in their hands, both the wheel & Dutch down. So says Isaac Sheldon Dec. 1851.

Shad will be found in these accounts.
In June 1736, Connecticut Shad were advertised in Boston News Mercel. Nov. 158

Shad many in Hadley No. 3.
See misc y. 88.89.

p. 81. Money.
When Dear Hunt began 1735 - Lawful or proclamation money had depreciated was worth about 4 times as much as Province bills; that is, the bills had sunk in value 3/4, according to the Table, see p. 81. But in fact, in the country, the depreciation was much less, in sales of produce, in inventories, &c see p. 282. 10/. silver was equal to only 25/. to 30/. (2½ to 3 for one in bills) as to most things.
1736. 1737. & 1738 were about as 1735 - and indeed but little difference till 1743, according to page 81. but probably produce became gradually higher during these years.
See depreciation page 221: Sun So Hadley. 57. Silver 28/. oz. Feb. 1742 in Sal

Con 5 138 Connecticut depreciation seems the same as Mass from 1730. to 1733 - probably always the same.

In 1729. 8/. one pound Sterling was said to be equal to three N.E. pounds in bills, or 5/. Sterling was equal to 15/ N.E. That Con 5 221 is, 6/8 N.E. lawful money was equal to 15/- in bills. On page 81, 6/8 or an ounce of silver is said to be equal to 16/ to 18/ in bills in 1729.

Money.
According to the Table page 81, Lawful Currency was equal to 3 times the amount in bills, or the latter had depreciated 2/3. in 1729. 1730 1731. 1732. But Hawley's prices in those years only show a depreciation of 50 per cent or 1/2, and Inventories not more than 1/2, usually less.
See depreciation page 221. in Hadley 3.74.
Sun M. 4. 146

Prices of 1704 & 1705 did not double before 1728 - and many not so soon (see preceding) see page 219. yet Silver plate was double in Hadley or 14/. oz in 1725 as appears by John Marsh's Inv. page 316

Cable makes Silver double the value of bills in 1722 - or bills depreciated one half. Samuel Porter Inventory, & Prices 1722, are only 60 per cent above 1704 - or 2/ in 1704 is 3/. in 1722 in bills, & not 4/.

Silver was 28/. oz. in 1741. (see pages 81. & 308.) This would make paper depreciated as much as 3/4, & bills worth only 1/4 their nominal value - about as in 1735. 6. 7. 8. But property was dearer than in 1735, 36 &c. although not 4 times the price of 1704. 5. 6. Silver was 28/. oz. Feb. 1742. in S. Hadley S.H. b. 7.

Bills of Credit. Gov. Dudley says May 29. 1712 - that the Province has kept the bills up to their just value hitherto in but they require attention therein. (when on a common par) Sumary. 2. 180. - There was no sensible depreciation until 1711 or 1712.

Act of Parliament about Hat Making. Misc 4. 15.

Deac. Ebenr. Hunts Book of accounts begins thus:-
"Let just accounts be kept by me
Ebenr Hunt."

This account book began in 1735.

At what time he began business in Northampton does not appear. He purchased the homestead and Hatters shop, in Northampton, April 10. 1730. He was of age (21 years) Aug. 28. 1724. He seems to have been in Northampton before 1730. He married Ebenezabeth King Dec. 9. 1730.

He built a barn in 1742. It was raised May 12. 1742.
He built an addition to his house in 1743; it was raised June 27. 1743.

Some of his purchases of land.

1750. He bought of Capt. Jothn Lyman 5 acres in Wallingford Tract. He says it was 86 rods long & 8 rods 6 links wide at West end; and 10 rods 6 links at East end (8.6. & 10.6 wide)

1743 Edwards Lot 2½ acres. E. of Mumham Ditch.
1747 2 acres in Bark Wigwam
1743 At middle gate, of Eking.

He sowed flax on a part of one of these lots, or more, in 1751. 1752. 1753. 1754. 1756.

Land to set his barn on & enlarge his yard he bought of Moses Lyman 1743. He says 2½ rods only. He gave for it £10.

Apprentices [more p. 90.

He had 1735 "Pelatiah", Holbrook, [illegible] died 1735

M. 14 | p. 254 | used to buy much grain in Northampton and other articles — pork, molasses, sugar, cider, peas, &c. Deac Hunt sold vast quantities of provisions to these settlers. Johnny Cakes put up with Deac. E. over night, the charge for mom & thore 1/8. Prince Lovejoy was often there, Eph. Patch, &c. Hog-wash supper, breakfast,
M. 14 | 253 | lodging, stable keeping for 1/8. & sometimes 1/6 & 1/4 Schooling items charged only 1/8 for 3 meals & lodging & horse

Ebent. Hunts sales of hats ceased about the beginning of the war 1775, & they had grown less before this. Afterwards sold, but a few in 1776. 7. &c. Was he in business with Josiah Dickinson? Some things look like this. Many of his hats sold before the war were not paid for till after the war. Interest was charged 5. 6. 7. 8. 10. & 12 per. He had but one price apparently for hats from 1751 to 1775, & this price for articles received in payment varied but little, when the quality was the same, in all that period. M. 15 | 357 | He kept all his accounts in Lawful money (6/ to the dollar) and evidently avoided Continental money — at least he kept no continental prices on his book. He sued some people.

Dear Eaton -

Dear Hunt's handwriting began to show signs of an unsteady hand as early as 1775 though pretty fair for some years after that. And 1778. 79. it was not quite as good as in 1775 and now gradually showed more appearance of trembling till the last. Yet all is legible plain, even the last entry made by him 1788, where he says "we killed a hog, weight 140 lbs" (There is a later entry than this superscribed)

He sold out his tan yard in 1775. still kept on the shop, and the trade continued to diminish till 1776, when they ceased. He sold a few in 1782.

After the war commenced he was almost occupied with his farming operations.

He had many debts (like Shepherd & Hunt to other traders) contracted before the war that were not paid till after the war — Notes and accounts — He charged interest in accounts, sometimes for 5. 8. or 10 years, & even more.

1813 Time of Planting &c. in Middlesex Co. Connecticut. Field's Middlesex p. 15 mine 2. 215

Rye is commonly sown in Sept. till the middle of Oct.

Oats, Flax } sown in Spring as soon as the ground is in a condition to be plowed.

Corn: planted on high ground 1 to 2 weeks in May, in Connecticut Meadows 2 or 3 weeks later, by reason of existence or danger of frosts.

Grain is harvested by some as soon as it is out of the milk & later by others when fully ripe, which has taken of late years in the last weeks in July. (Hessian fly)

Importing Medicines &c. 1769 &c in

Corbyn & Sothun in London gave a year's credit from the date of the invoice & charged interest at 5 per cent. if they bought goods for 8 & 4 & 8 per cash, they put them in the bill at cost & charged 5 per cent interest & 2½ per cent Commission in purchasing &c

In 1769, the expense of boxes, chests, casks, or glass bottles, or packing & putting up medicines - cartage, custom house & shipping expenses, insurance at 2 per cent, police & premium &c and the interest & commission on articles bought with cash amounted to between 7 & 8 per cent. On paints not so much
There is all the expenses in London charged in the invoice.

In 1783-84 & 85 the expenses were about the same for the same things, but a little higher in all making from 9 to 10 per cent. In 1791 8 per cent

In 1784 Sheppard Paine & Hunt still owed Corbyn, Brown & Co 3 Notes, on old matters - only one due.

Electrical Machine was purchased by Dr Hunt in London 8th 8mo 1785 - cost 6£ 6s 0d
One cylinder was broken in coming over.

The freight from London to Northampton in 1769 was 10. 6d & seems to have been from 5 to 10 per cent, according to article & the circumstances - perhaps 7 or 8 per cent on an average.

The prices in London in 1769, & in 1783 & 4 did not vary a great deal, taking the various articles about half the prices in 1783 were as in 1769 Some of the articles were higher some lower - & the whole prices were as low a little lower in 1783 than in 1769 -

Selling Prices in Northampton.
Hunt & Sheppard in 1769, 70 &c, sold their medicines to Physicians by the quantity at about 2½ lawful for 1 Sterling, & common from 2, 4 to 3 for 1. Other articles more often 3 & more, for 1 - expensive articles sometimes less than 2½.
Supposing the average to have been 2½ for 1 & all the charges equal to 16 & 2/3 per cent. The advance (2½ for 1) on cost & charges was equal to 60 per cent. This may be a little too high - not much.

In 1784-5-6 &c the advance was about the same on the Sterling - nearly 2½ for 1 and the profit was not so great, as there were more duties in this country.

This refers to Medicines Paints, Spices, &c do not mean to have a profit

Physicians before the Revolution

Seth Alden, Shaftsbury May 1782 — says he has often disappointed them, but shall now disappoint them more than ever, for he shall send the money by the bearer — Says he has been almost ruined by depreciation of the currency. Says he sold his farm & stock by way of lottery. when money was 6 for 1. & then he got three for 1. money was 24 for 1. & thus lost his farm entirely. Removed to Pittstown & retrieved his affairs by farming on leased land — Esquires must gratuitize for their forbearance — expects to want more medicine.

Caleb Perkins writes from Hartford, June 1773 — had expected money from Lanesborough — but had not got it — promises will.

Robert Cutler. Feb 1775 — sends 30£ by his wife — thinks he owes 5.8 H. considerable more, he thinks they cannot greatly complain "Considering the difficulties of the times." "Your medicines by their dearness lead me to think you recover interest from time to sale, so I hope you will not be so particular in the interest afterward"

Nathaniel Dickinson. Pennington Aug 1774 — has no money but promises fairly.

Jonas Fay had been in the service — writes from Cuttsfield on his way home Feb 1776 — says he shall take another tour to Canada, or wait on the Congress at Philada. to which he had been invited. Promises to write about the Northern Army as to past affairs — talks about pay but not one (at Lansdown write)

Asahel Clark Jr. Lebanon, Ulster 3. 1773 recommends Dr Polycarpus Cushman, who is about to settle at Bennington — Speaks very highly of him but will not stand Sponsor, "having been once ruined by suretyship & have hurtful to many."
My Compliments to Mr Hunt & Mr Shepherd.

Jacob Glasek. Wantown Jan 1775 — sends notes against other men for 5.8 H. stake — if this is done, wants more medicine — if not not. (at Goodwin)

Seth Alden, Shaftsbury Jan 1774 — says it is very difficult to collect money on account of the dispute about the title of our lands, which cannot all have to cease except mob-law — Promises to get some money after a while.

James Bradish Nov 5. July 1775 — Cannot pay now & less than to be patient — sends 8 dollrs.

Wm Ward waird Albro Ulster 1774: — refers to accounts at Lansboro — will pay

John Crane. Hanover Sept 1774 — had settled a number of students, but many failed to pay that I cannot pay you — they promise to pay after vacation. Hope you will not be put me to cost

Nath Jewett Sept 1775 — Boston — writes in great haste — continue to N.H. by reason of misfortune but has not time to tell what they are — has resided in Virginia some time — will see S.H. some months hence

Caleb Perkins. Hartford March 1774 — had been sued by S.H. says business dont make money — cannot pay till May — says if he dont pay within 3 days "you may sue me or send me to the devil." "I am not in a pet but am decidedly mad" "It galls me to think you have so low an opinion of me" Wishes to confer, & have the matter with them

Physicians before the revolution & during
this paid very slowly, & were frequently much in
proportion to practice. Some did not pay at all.

Wm Clark, Cunnington 1774 — could not pay sum due to
circumstances of his family — promises to pay in
Oct. Begged not to be sued.

Amos & Stern Wadsworth, Farmington Aug. 1774
Fear suit will be to their advantage, but hope
think they import nearly all their goods, should
be glad you would not inform them to the contrary.
Shall Gillett will be forward to tell people that
they can afford to sell 15 cheaper than we can
get ours here, our medicines of Shepherd & Lamb.
How can it be otherwise (they say) when Dr. has
100 miles land carriage? Dr. H.W. wish to have
Dr. Stephens get Smith & Gillett's prices "both
Doctors & common people" & let them know, & they
will keep it secret.

Jr. Jn. Crane, writes from Dresden June 12 1783 — that
he had been in public service from 1777 till then, wants
cannot collect money & publicans indebted to him —
begs not to be sued — will pay in Dec. To make
immediate payment is impossible. Hears Salmon
Hears at Dartmouth, 1773 — then talks of difficulties &c.

Wm Page, Charlestown, June 1782 — bills & securities
of money, deficiency & collection. Left 400 £ with
Dr. Wood, Williamstown to collect — he hasn't been
able to collect — thinks to get security &c.

Seth Saddleford, Granby 1782 about his brothers affairs
his brothers sued 8 years before poor — had been a
Doctor at Hardwick

Asahel Stone, Stockbridge, Nov 1782 about Dr Binney
at Pittsfield. He went with an officer &c to
& Dr. B. swore he had no estate. Mackay told him
& gave him some groceries which soon sold
him, & he sold 75 acres of land and a farm
on it to the officer &c. The poor Doctor is
now stripped of all of his estate.
Dr. Johnson of Wmstown is dead & estate
said to be insolvent — your debt against
Dr. Macek's estate, he says, is safe &
have done nothing to quicken the Doctor
since the time he acted as
fabricated!

Sam Lyman, Hartford June 1782 about Dr Binney
who owed S. & H. Had taken out execution. He
pleads poverty & necessity, & pleads an ex'n to leave
Dr. Howe has paid part, & promises the rest,

J. Claudius Williams, Pittsfield Dec 1783 — had returned
Dr. Marsh's debt in cases of necessity &c
told them — he thinks Dr. Mack owes 900 £
more than he can pay — — He has
some Children — speaks of Child "natural
negligence" — "the intolerable scarcity of money"

Asahel Stone, Stockbridge Feb 1782, about Dr Binney
and Dr. Macek — says Macek's widow has
married a poor wretch — says he had mol-
ested Dr Johnson "on account of the danger
of putting a stop to justice, unless we proceed
with the utmost caution in this region"

John Johnson Wmstown Nov 1779 — says he will not
offer continental for exchange 1775 — offers to lend
some wheat as soon as wanted, but fears
that flour is poor — says Dr Macek's widow
has married against the wishes of her friends

Samuel Adams, Arlington Aug 1774 — says he expects
to raise money from grain, but the scarcity
in the Government should hinder selling it at
a fair price — has sent some to New York by
Dr. Lamb.

John Crane, Dartmouth College Sept 21 1779 — had just come
to pay Dr. Sage & Co. "Yesterday Mr. Wells returned
from Canada with 3 or some Indian lodges — one in
Lane & under my care."

102 Physicians before & during the Revolution

Com. on Fay, Bennington Sep. 1774 — refers to L. H. repeated requests for cash, when he had not consulted with — now insists on settling for myself like a Lamb in as large as you can possibly challenge Promises to send some — says what he has on hand is not enough to shut the back of the note with it.

Letter from Dr. Amos Wadsworth, Farmington, Nov. 19. 1774 to Sherbrook Hunt, appended to a letter on business

Gent. D.C. I am not a little rejoiced to hear that you are both so zealously engaged in the cause of liberty, which I very much doubted last Spring. Hope you will stand firm, and resolve with others to spend your lives and fortunes in its defence, and by a glorious stand, transmit those liberties which you have enjoyed, unimpaired to the latest posterity.

A Tory is as much out of his element in this town, especially in this part of it, that I may be allowed the comparison, as a sinner would be in heaven.

Pray God speed you right

Amos Wadsworth.

Wm. Learned, Sandwich, writes to Gov. Trumbull imploring letter July 7. 1783 — has large family and 6 children — Debt contracted more than 6 years before — says he had lost a little estate by paper money. Knows the greatest scarcity of money ever known here. Is in hands to collect £100 old tenor now then £10.4 2 years ago — has built about 20 rods of stone wall — refers to this birth at the same Alma Mater.

In D.C. His cousins were abandoned & Hessians dangerously sick.

Capt Jona Hall, who first set up a pottery here, was of Hadley in 1770. He came here in 1773 & lived on the place this side of Silas Lyman's & had a pottery back of his buildings—used to cart clay from the bank of the river above below the old ferry by the Bridge—seems to have died here after a long sickness in Nov 1776. His accounts all paid.

Isaac Sheldon says, 1848, that the pottery was on place of Widow Lyman & Charles Lyman. He remembers it (born 1774) but does not remember Hall. Says Ebenezer Gibbs came up from Chatham & carried it on some time. Welch & others worked there. Sheldon has seen them forming their pots, pans, &c. when young. Thinks they got some clay from Clay Hill, beyond Welch End.

Samuel Hannum peddled ware 1773 & 1774. See 426 p

Ebenr Gibbs sold Ware at South Hadley 1794. Where did he live? See Con. 10: 378.

Worcester Company

Jan 18. 1773. Levi Shepard & Ebenr Hunt had been in the Apothecaries business in Worcester & had built a Shop there — they now took into partnership William Paine of Worcester, Physician.

	£
L.S. & E.H. put in as stock medicines	200.
Wm Paine in ditto	200

Partnership to continue till July 7. 1783.

L.S. & E.H. to carry on the Apothecary business and do all things at their expense.

Wm to practice Physic at his own expense except half a horse & horsekeeping.

L.S. & E.H. to have half profits, & W.P. ½ the profits and half the stock &c

Their book debts & Notes (on 1776 apparently)	479	3.6
Stock of Medicines &c	223.	18.0

1776
July 10 Wm Paine having been some time gone out of the country, the partnership was dissolved, & his father Timo Paine managed as his attorney —
Agreed to divide the property — Paine to have half, they half the debts

The Goods on hand were £233. 11. 7 after deducting £53. 12. 2. July 1776 — Invented at old selling price except 7£ 15. 0. Shepherd & Hunt bought Paine's share of the Goods — Timo Paine allowed them 90£ for taking care of the shop &c in Doct. Pa absence.

Levi Shephard Esq of Worcester then acc. began on Northampton book Aug 12 1769. and for two years, up to August 1771 there was charged to them here — 633. 12. 4
There was credited to them — 239. 0. 3½
Of this sum, Mr Paine paid in Cash — 84. 13. 10
and Shephard & Hunt put on, in Goods to } 84. 13. 10.
half Wm Paine's

Of the above debt £633. 12. 4, the sum of 395. 5. 8 is charged here on book for Goods Aug 20. 1771. Including charges for boxes, jugs, casks, commission &c on articles not in drugs & medicines as paints instruments, &c which are charged at cost in London. by Corbin Esq — insurance on goods & shipping &c. 32. 2. 1. in all — on 363. 3. 7 — about 9 per cent

White lead cost in London 37 or 38/ Cwt. Red lead 24/ Cwt. Spanish yellow 20/.

1773 July 1 They paid 30£ for taking care of the Worcester Shop the last year —

1773 March Dr Wm Paine wrote — had bought 50£ in groceries Gum for Tea 3/8 & could sell it for only 4/ — Had bought Medicines of Dr Greenleaf (Boston) & he deducted 10 per cent for prompt pay — Says we must send to London for the Medicines soon — says it will not do to buy in Boston at the rate of 15/ for 1/.

8 July 1773 Dr Paine says "we had a cask broke 50£, a good deal" urges them to send to London for larger supplies — says the goods from June 7th to July 7 is 355. 10. 6. Cash?

Same p. 106.

Dr Hunt. 1787. & 1788. charged the Hire & Cart 2/10 each for cutting many acres, & 1/4 each for many executions.

Dr Hunt [illegible] the same for the same of the Same & Nath[l] Ames, Westfield
Caleb Strong rend him same for same
Many others did the same.

Dr Hunt finded out, keeper dollars in 1780 and 1781 at 1 penny per dollar — or 8/4 in 100[l].

1780 Cd Seth Hunts grave stones of Nath[l] Phelps
Had 3.38 cost £4.12.10 each.

p. 112 Continental money
Was worth one penny per dollar above
or 72 for 1 — page 107, 72 for 1 in 1780
May 9. 1781. Jona. Judd Jr. who was in
Boston says in his Journal
"The old money is brought very fast
from the southward, and the exchange
is 100 for one!"

Prices on opposite page seem to intended to be on a Specie basis. It was impossible to keep up with depreciation, so he fell back to what he called Specie prices, & demanded Specie prices in pay. So I think.

The stock on hand Jan. 1802 was 1600
at Prime cost prices

The cash prices at which they were sold by wholesale to Doctors and others are all shut down. By comparing these prices with the bills, it appears that the advance on Drugs and Medicines purchased in this Country was from 50 to 75 per cent, and on many low priced articles 100 per cent. When they were sold for the sick &c in small quantities, they were put much higher, & when charged to Physicians, near prime cost, paints, &c were sold at reduced profits, or little advance.

Expenses in importing medicines 1797, Entrys &c. 2 1/2 per ct
casks, bottles, boxes &c cost about
insurance & policy (8 guineas per ct) 10 " "
Commissions on things bought for trade 1/2 " "
Hunt, & other dealers
Duties, brokerage, shipping expenses &c 1/2 " "
On most things 15 per cent on a few only 12 1/2 per cent — average over 14 1/2 " "
This does not include freight from N. York — 29 per ct.

He lived on homestead. E. Side 2d below Meth. St.

Son Neh. lived apparently on lot at lower end of Street.

Son Samuel succeeded his father.

Son Israel had house & on plain, next to Bay Road — called 11 acres in Inv.

His Amherst Lot — in 2d Division — 170. ± acres in 3d Division 68 rods 1 ft wide

Both lots appraised at only 10£ in 1723. not ½ an acre — but 2d Div. lot was much higher than 3d Div. lot

5 Sons. or 4 + heirs of 1. had real estate.

The prices of the Real Estate are in general much below those in Alexander & Montagues inventories, below. 2 years after.

Prescriptions.

For some disease (he does not name it) which had been much in the bay this winter; by Mr. Alcock, besides nitre to drive it from the heart, 8 glisters.

Take 1½ pints of pond drink, a spoonfull of flaxseed beaten, half a handfull of mallows, half a handfull of [illegible] and as much of violet leaves; a little sprig wormwood, a spoonfull of anised, a spoonfull of fennel seed or roots of fennel, boil to a pint. Strain it, put in a good spoonfull of sugar, a spoonfull of sallet oil, & much bound tow, & so apply it. & keep it some time —— This has done much good to many that have had this disease.

Use this Drink —— 1 g hartshorn; 1 g mayd flowers, handfull maidenhair, handfull violet leaves, little liquorice, anised & fennel seed or roots, & currants; boil half away, sweeten with sugar. If you cannot get all, use what you can get — for a drink. May 5. 1662. David Wilton, copy

For the Cramp

Take 2 handfulls of monks rhubarb alias patience roots, bruise & boil it in 9 pt water down to ⅓. Strain it & put in 2 lb of honey, boil to thickness of new honey. Put in white wine vinegar, 10 oz to make it a tart drink; take it every morning, (fasting 2 hours after) 5 or 6 spoonfulls.

Currency. In first Joseph Hawley's time the pay price was 50 per cent higher than money price, as is seen in the articles that Lydia had & threshed.

When the 2d Joseph Hawley began his accounts 1712, he brought accounts from his or his father's old book, when they had been kept in pay currency, and turned them into money currency by deduction one third. The money currency was the Province bills, which soon depreciated below old "pay"; and all commodities increased in nominal value.

The accounts in 2d Jos. Hawley's books are in the Province bill currency.

2d Joseph Hawley had some groceries, & heavy goods, but not many, and no dry goods, previous to 1717.

His proper mercantile accounts began in September 1717.

Mens garments. 1717 and after. [Letter 9. 182.

Buttons were of two kinds, metal, and others of thread or mohair or silk. 1717. The metal buttons were called brass some years after, or a part of them. The other kind came in bags.

A coat generally had 3 doz Buttons 1717 to 1726: after 17. had only 30 buttons; a few only 24 or 28. a few 32. or 40 or 42.

A vest had about 18 buttons: sometimes 16 or 20.

Breeches had but few—cannot tell how many.

3 yds of Broad Cloth made a Coat; and some used less, 2¾ to some probably 3/4. rarely 2½. Generally 3.

3½ yds Broad Cloth made a coat and 1 vest or a coat & breeches.

5 yards Kersey made a coat, & the common sort 5 yds Druggit or other narrow cloth.

¾ yd of Broad Cloth or 1½ yd of narrow serves to line & make vest & breeches

7 yards Broad Cloth were sold for a vest buttons, not uncommon. And sometimes 3 yards of Kersey. Must have made the two garments I think.

Did they make vest & breeches? I think so. There was no "vesting" so called; the 3 garments were made of the same, or similar cloths. A Vest required more cloth, being long, but breeches needed less being short, fastened at the hips & knees that is, the "much" "less" as compared with the present day. Breeches may have required more than the vests, or about the same.

Most of the common garments were made from cloth manufactured at home, coarse but substantial. Wedding coats and other nice coats were bought of the merchant.

The sale of trimmings for garments was very extensive; all families had buttons, silk, mohair, and some lining; and most had in addition, buckram, stay tape or tape, and afterwards, wadding, with expensive linings of shalloon, &c. Baize was much used about garments, for linings, &c.

Indeed the great business of the country trader was selling trimmings, rather than the woolen cloth for the garments.

Females perhaps had more of the trader; but even their gowns were not so important as other things, many being manufactured at home, and petticoats also. They had many trimmings, and aprons, scarves, hoods, stays, articles about the neck, &c.

There were no bonnets, & the trader sold nothing that is named as belonging to the head, & very little for the feet. Some had fur hats from the hatter; others had hoods coifs, &c. The shoemaker made the shoes, and they knit most of their stockings.

Linings for coats were: Shalloon from ½ yd to 5 yards and some many had none. ½ yd. 1 yard, 1½ 3. 4 & 5 were rare. Some may have had more. Some used Baize instead of shalloon. Shalloon & perhaps Baize were used on vests & breeches, & had a little lining.

Buckram was not used in half the coats: and Wadding in very few. ¼ yd Buckram was used in some vests.

Mohair ½ 3/4 yd were used for a full woolen garment for men. For a coat mohair 1½ a 2 yds. Silk 6d to 11/.

Cloth for a chemise, homespun was 2½ yds at 3/ 1/ 1718 2 3/ 3/4.

Smoking — must have been a very common habit 1712 1735, & before & after. Almost all men have pipes in their accts and many families, a great number were purchased. Very little tobacco was sold by H. Probably they raised their own.

p. 263]
m. 9. 100.
Com. 9. 277.
m. 18. 202

Dwight also sold many pipes.

Hunting. There were some who hunted much, & most now & then indulged in the sport, but the greater part were too industrious to spend much time in hunting. They generally bought lead & ran bullets and perhaps buckshot, as they sought deers, turkies, & large game, and never thought of shooting at the singing birds. They bought some shot however, which they probably used for large squirrels, and to kill crows & blackbirds when there was a reward for doing it.

m. 9. 75

Thanksgiving. Hawleys charges do not indicate that much was bought at the Store for Thanksgiving. Spices & sugar are not charged much oftener in Nov's & December than in other months. Hawley did not keep raisins. — [all families used allspice & pepper — & many had nutmegs, & some had cinnamon. Mace and cloves were very rare. — Refer to the year generally, & not to Thanksgiving.]

m. 11. 154

p 208. p 206

Tim. Dwights accounts, 30 or 40 years later, indicate an increase of spices and other things for Thanksgiving, but not much was purchased for the occasion by farmers. They had good things of their own produce with some addition. They bought pepper.

m. 11. 154
m. 18. 202

On the 3 Jos. Hawley's Book (next page) - there was pepper & allspice & other spices sold before Thanks. since 1745. Pepper in abundance. — Linen for garments, Pepper at all times, and powder lead & shot.
